

## **Department of English Best Practice: Vocabulary Development Workshop**

The Department of English holds a Vocabulary Development Workshop every year as its best practice. The workshop is aimed at bringing out the latent vocabulary of students and proving to them through a tool developed by Dr. Anjali Patil that their vocabulary is much larger than they think. This acts as a confidence booster for students, a majority of whom suffer from a complex because they are unable to speak English well.

This year, the workshop was held on 10/12/2021 and about 50 students from BA Sem I and III as well as B Com Sem I and III attended the workshop. It was very well received by students
