Internal Quality Assurance Cell (IQAC)

The IQAC is one of the biggest examples of decentralisation of work. It is responsible for preparing and implementing a blueprint for the working of the institution every year and reviews its policies every five years after an assessment cycle, thus endeavoring to stay in tune with the times.

- It defines the short-term and long-term objectives of the institution.
- It creates a benchmark for quality-enhancement measures.
- It devises a work plan to achieve objectives.
- It monitors and coordinates the execution.

The IQAC functions with the belief that excellence and quality are not one-time goals but continuous processes. To this end, the IQAC meets on a regular basis. New programs, up gradation of infrastructure and increasing the effective functioning of all systems are some of the major concerns of the IQAC.

Formation of Internal Quality Assurance Cell (IQAC)
