## NEP WEEK DETAILS

- The workshop saw participation of expert faculty. Dr. Ajay Kulkarni, principal of C.P. and Berar College, Dr. Ilind Barhate, Dean of Department of Commerce, Dr. Sanjay Kavishwar, Dr. Medha Kanetkar was co-ordinator and convenor.
- National Education Policy week cleared various concepts mentioned in NEP to have more clarity. The concept of ABC is mentioned in NEP. The Academic Bank of Credit referred to as ABC in short, is a virtual mechanism that will deal with the credits earned by students of Higher Education Institutes in India and which are recognised by the University Grants Commission (UGC).
- ABC is a bank for academic purposes on the patterned of commercial banks for financial purposes with students as academic account holders to whom ABC shall provide a variety of services including credit verification, credit accumulation, credit transfer or redemption and authentication of academic awards.
- The credit system in education is a standard used by universities to measure and assess students' work and effort during their Bachelor's, Master's, or PhD programme.
- Interestingly NEP 2020 focuses on language as well. The NEP content development in regional languages, schools, and institutions can ensure that students in these areas can also learn in their mother tongue, leading to better learning outcomes and improved social mobility.
- The National Education Policy 2020 has 'emphasised' on the use of mother tongue or local language as the medium of instruction till Class 5 while, recommending its continuance till Class 8 and beyond.
- There is also a term that is subject basket. The document states that the secondary stage of Classes 9-12, as envisaged in NEP, will comprise four years of multi-disciplinary study while also giving students flexibility in choice of subjects in Classes 11-12.
- The students will be able to take up major and minor subjects as per their priorities. The major will account for at least 50% of the total credits earned in the three or four-year undergraduate (UG) programmes. Next, the students will have to pick a minor subject (18-20 credits) from any department of choice, including the department of their major.
- As suggested by the NEP 2020, the new education system will follow a 5+3+3+4 education system where the students will spend 5 years in strengthening their foundation, 3 years in the Preparatory stage, 3 years in the Middle stage and rest 4 years in the secondary stage.

- Dr. Ajay Kulkarni, guest speaker shed light on the various angles related to the implementation of NEP 2020. He shared insightful information on NEP. Also a video of Dr. Sanjay Kavsihvar from commerce department of RTMN University was uploaded on YouTube. His interview was conducted for the same.
- NEP week was celebrated with a lot of participation from students and teachers. Students were boosted to make reels and videos on NEP aspects. This competition received a wonderful response with over 25 videos and reels received from group of students
