

Pre-PhD Coursework

28th October 2023- 4th November 2023

By

The Place for higher learning and Research,
C.P.& Berar College Nagpur

***Objective – To guide research students on various aspects
in their Research work***

INTRODUCTION

Research is defined as the creation of new knowledge and/or the use of existing knowledge in a new and creative way so as to generate new concepts, methodologies and understandings. It is a process to discover new knowledge to find answers to questions. The word research has two parts 're' and 'search' which means that we are taking up an activity to look into an aspect once again or we want to look for some news information about something.

Research generates novel ideas, builds credibility, and develops understanding and analytical skills so a researcher could implement his or her guts to rationalize the work and build a better foundation for followers in the career field and so they could take the right decision at the right time without facing hurdles.

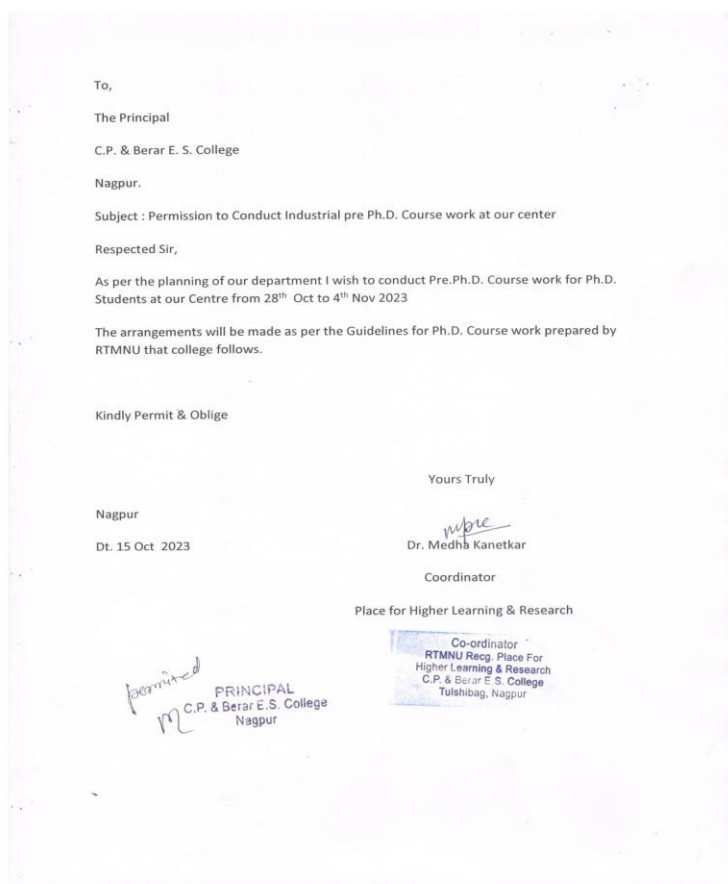

After completing post graduate degree, most of the teachers and students generally decide to do the research for Doctors Degree i.e., PhD. The traditional PhD (Doctor of Philosophy) awarded by university is the best advanced research qualification for students. But, generally students are not aware about the process of the post-doctoral research. Hence, Pre-PhD course work was organised at C P & Berar College, Nagpur for duration of one week to bring in more clarity on the concepts.

Venue -MBA Department, C.P.& Berar College,Ravinagar, Nagpur Timing- 9.30 am to 5pm Dates – 28 th oct 2023 – 4 th Nov 2023
--

The resource person for the program was Dr. Medha Kanetkar, Co-ordinator, Place for Higher Learning and Research, C P & Berar College, Nagpur. Research**

Time: 10:30 Am to 1:00 Pm

Session-2

Dr. Ashish Linge

**Topic: Review of
Literature**

Time: 1:30 Pm to 5:00 Pm

Day 1

Topics Discussed: Understanding the basics of research process and types of research and Review of Literature

There are two main categories of research methods: qualitative research methods and quantitative research methods. Quantitative research methods involve using numbers to measure data. Researchers can use statistical analysis to find connections and meaning in the data.

Exploratory research is also known as "formulative research". The basic objective of this research is to explore the unknown facts or phenomena that are not previously defined. Descriptive/Statistical Research: Descriptive research can be defined as the research that tries to explain the characteristic features of the population under study.

Experimental/Causal/Explanatory Research: Experimental research, also called "causal research" or "explanatory research", is carried out to identify the causes of any effect. rd teaching method. Empirical Research: Empirical research is data-oriented. This kind of research provides insights through observation or experiences.

A literature review is a piece of academic writing demonstrating knowledge and understanding of the academic literature on a specific topic placed in context

Session-3

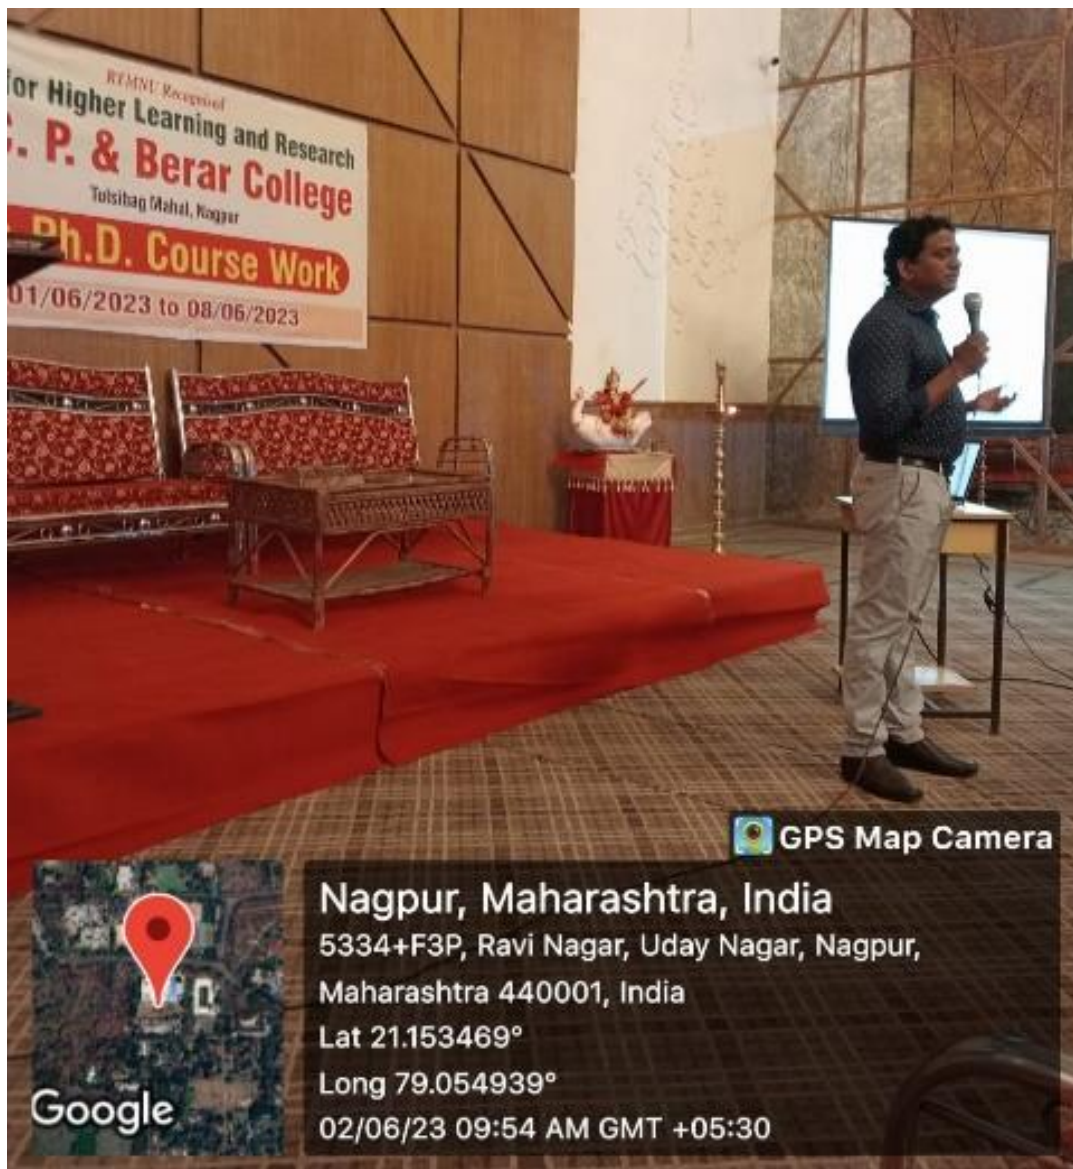

Dr. Medha Kanetkar

Topic: Research Design

Time: 1:30 Pm to 5:00 Pm

Venue: MBA Department, C. P
& Berar College,
Ravinagar, Nagpur

Topics Discussed: Formulation of Research Problem, Title Formation and Research Design

- Formulation of research question (RQ) is an essentiality before starting any research. It aims to explore an existing uncertainty in an area of concern and points to a need for deliberate investigation.
- The title summarizes the main idea or ideas of your study. A good title contains the fewest possible words needed to adequately describe the content and/or purpose of your research paper. Research design is a blueprint of a scientific study.
- It includes research methodologies, tools, and techniques to conduct the research. It helps to identify and address the problem that may rise during the process of research and analysis.

DAY 03

Berar College,
Ravinagar, Nagpur**

Session-3

Dr. Ashish Linge

Topic: Sampling

Time: 1:30 Pm to 5:00 Pm

Topics Discussed: Objective formation, Hypothesis Formation and Sampling

Research objectives describe what your research is trying to achieve and explain why you are pursuing it.

They summarize the approach and purpose of your project and help to focus your research. Your objectives should appear in the introduction of your research paper, at the end of your problem statement.

A hypothesis is an assumption that is made based on some evidence. This is the initial point of any investigation that translates the research questions into predictions. It includes components like variables, population and the relation between the variables.

Sampling means selecting the group that you will actually collect data from in your research. For example, if you are researching the opinions of students in your university, you could survey a sample of 100 students.

In statistics, sampling allows you to test a hypothesis about the characteristics of a population.

Session-2

Dr. Ashish Linge

Topic: Research Paper Writing

Time: 10:30 Am to 11:30 Am

Day 4

Topics Discussed: Journal Selection, Research Paper Writing, Bibliography, Refrence and Plagiarism and Zotero & Mendley

The journal's aims and scope. The journal's target audience and recent publication history. The significance and broadness of appeal of the findings described in your manuscript. The type of study you did is what look for in a journal while selection.

A complete research paper in APA style that is reporting on experimental research will typically contain a Title page, Abstract, Introduction, Methods, Results, Discussion, and References sections. Many will also contain Figures and Tables and some will have an Appendix or Appendices.

Bibliography is a list of books and other source material that you have used in preparing a research paper. Sometimes these lists will include works that you consulted but did not cite specifically in your assignment.

Presenting work or ideas from another source as your own, with or without consent of the original author, by incorporating it into your work without full acknowledgement is plagiarism in research.

Mendeley uses Citation Style Language, which offers over 7,000 free CSL citation styles. Check or change your citation style in Mendeley Cite which you installed into your Word application. Zotero uses Citation Style Language, which offers over 7,000 free CSL citation styles.

Session-3

**Dr. Tushar
Chaudhari**

Topic: Data Handling

Time: 1:30 Pm to 5:00 Pm

Topic: Questionnaire Designing, Research Ethics and Data Handling

Designing a questionnaire means creating valid and reliable questions that address your research objectives, placing them in a useful order, and selecting an appropriate method for administration. But designing a questionnaire is only one component of survey research.

A questionnaire is a research instrument that consists of a set of questions or other types of prompts that aims to collect information from a respondent. A research questionnaire is typically a mix of close-ended questions and open-ended questions.

Research ethics involves the application of fundamental ethical principles to research activities which include the design and implementation of research, respect towards society and others, the use of resources and research outputs, scientific misconduct and the regulation of research.

In any case, a course in research ethics can be useful in helping to prevent deviations from norms even if it does not prevent misconduct. Education in research ethics is can help people get a better understanding of ethical standards, policies, and issues and improve ethical judgment and decision making.

Data handling is the process of ensuring that research data is stored, archived or disposed off in a safe and secure manner during and after the conclusion of a research project. This includes the development of policies and procedures to manage data handled electronically as well as through non-electronic means

Dr. Keshav Walke

Topic: Descriptive Statistics

Time: 9:30 Am to 1:00 Pm

Session-2

Dr. Rekha Sharma

**Topic: Data Analysis on
Excel**

Time: 1:30 Pm to 5:00 Pm

Day 6

Topic: Descriptive statistics, Data analysis on Excel

Descriptive statistics are specific methods basically used to calculate, describe, and summarize collected research data in a logical, meaningful, and efficient way. Descriptive statistics are reported numerically in the manuscript text and/or in its tables, or graphically in its figures.

In Microsoft Excel, data tables are part of a suite of commands known as What-If analysis tools. When you construct and analyze data tables, you are doing what-if analysis. What-if analysis is the process of changing the values in cells to see how those changes will affect the outcome of formulas on the worksheet.

In a Data Model, each column has an associated data type that specifies the type of data the column can hold: whole numbers, decimal numbers, text, monetary data, dates and times, and so on.

Dr. Varsha Nerlekar

Topic: Software Tools in Research

Time: 9:30 Am to 1:00 Pm

Day 7

Topic: Software tools in research

The software tools of research are typically more abundant than hardware tools in the social sciences. Software is usually thought of to mean computer programs that tell the hardware what to do, but any tool not related to a physical device can be considered software. One of the widely used tools for research is Microsoft Excel. MS Excel has plenty of features that will come in handy when you are doing a research project. Excel is a must have research tool if your study involves a lot of quantitative analysis.

Google scholar, Mendeley, Zotero, Endnote, Momentive, SPSS are some widely used software tools in research across world.

देशोन्नती वृत्तसंकलन...

नागपूर ■ पीएचडी करणाऱ्या विद्यार्थ्यांसाठी आवश्यक असलेल्या चार क्रेडिटच्या प्री पीएचडी कोर्सवर्कचे यशस्वी आयोजन सी.पी.अँड बेरार महाविद्यालयातर्फे करण्यात आले. १ जून ते ८ जून दरम्यान घेण्यात आलेल्या या कोर्सवर्कचे उद्घाटन राष्ट्रसंत तुकडोजी महाराज नागपूर विद्यापीठाच्या व्यवस्थापन विभागाचे प्रमुख डॉ. अनंत देशमुख यांच्या हस्ते झाले. यावेळी महाविद्यालयात अशा प्रकारच्या कोर्सवर्कचे आयोजन मागील बारा वर्षांपासून सातत्याने करत असून विद्यार्थ्यांमध्ये संशोधन प्रवृत्ती वाढवण्या करताच हे कोर्सवर्क प्रामुख्याने आयोजित केले जाते, असे प्रतिपादन कोर्सवर्कच्या आयोजक डॉ. मेधा कानेटकर यांनी केले.

उद्घाटनपर भाषणात डॉ. अनंत देशमुख यांनी या उपक्रमाचे कौतुक केले आणि असे कोर्सवर्क करणे युजीसीच्या नियमानुसार सर्व पीएचडी करणाऱ्यांना आवश्यक असल्याचे त्यांनी सांगितले. कार्यक्रमाचे अध्यक्ष मिलिंद बारहाते यांनी सर्वांना शुभेच्छा दिल्या.

या कोर्सवर्कमध्ये डॉ. निखिल अटाळे, डॉ. आशीष लिंगे, डॉ. मेधा कानेटकर, डॉ. गोपी निंबते, डॉ. सुजित मैत्र, डॉ. प्रवीण बांगडे, डॉ. सुनील पहावा, डॉ. तुषार चौधरी, डॉ. बलदेव काकडे, डॉ. सुमित अरोरा, डॉ. रेखा शर्मा, डॉ. केशव वाळके आणि डॉ. वर्षा नेर्लेकर यांनी मोलाचे मार्गदर्शन केले.

डॉ. सुनील पहावा हे जबलपूर येथून तर डॉक्टर वर्षा नेरलेकर या एमआयटी पुणे येथून मार्गदर्शन करण्यासाठी आल्या होत्या. ८ जून रोजी कोर्सवर्कचा समारोप शिक्षण

मंचच्या अध्यक्षा डॉ. कल्पना पांडे यांच्या हस्ते करण्यात आला. बारा वर्षांपासून सातत्यपूर्ण हा उपक्रम राबवल्याबद्दल त्यांनी महाविद्यालयाचे अभिनंदन केले. यावेळी युजीसीच्या गार्डललाईनप्रमाणे तयार करण्यात आलेल्या विद्यापीठाच्या नियमांवर त्यांनी प्रकाश टाकला. हे सर्व नियम पाळणे आता आवश्यक आहे त्याशिवाय पीएचडीला अर्ध राहणार नाही, असे त्या यावेळी म्हणाल्या. यावेळी अध्यक्षीय भाषण करताना डॉ. मिलिंद बारहाते यांनी

विद्यापीठाच्या नियमांमध्ये वारंवार बदल होत असल्यामुळे विद्यार्थी आणि मार्गदर्शक संभ्रमित होतात असे मत व्यक्त केले. तसेच यावर योग्य उपाययोजना करण्याचे मत त्यांनी प्रदर्शित केले. सहभागी विद्यार्थ्यांनी या कोर्सवर्क बद्दल आपले मत व्यक्त केले आणि हा अभ्यासक्रम त्यांना संशोधन कार्यामध्ये नक्कीच मदत करेल असा विश्वास त्यांनी व्यक्त केला. या आयोजनाबद्दल डॉ. मेधा कानेटकर यांनी उपस्थितांचे आणि सहभागींचे आभार मानले
